COUNCILMAN DUVALL SAYS HE IS FOR JAMES P. SMITH

FIRST WARD MAN MAKES STATEMENT

False Report Concerning Republican Candidate and Reckless Newspaper Story Do Him Gross Injustice

HAD NEVER DESERTED PARTY.

Councilman C. C. Duval of the First ward, issued the following card today explanatory of his action in the Republican city convention Thursday afternoon.

"Chagrined at the defeat of Mr. Palmer in the convention, the man whom I believed to be the best qualified for the office of mayor of Paducah, when my name was read as a nominee for councilman from the First ward, I stated that I would not serve. This attitude I took on an estimation of Mr. Smith which I have since learned was prejudiced by certain unfounded facts that had reached me before the convention. I did not then think that my statement would be construed to mean that I had deserted the Republican ticket and it is to right that impression given out by a reckless paper as well as to announce my allegiance to Mr. Smith, that I issue this statement. Since the convention I have found that my opinion of Mr. Smith based on alleged facts, that somebody evidently was interested in coloring, is wholly erroneous and with their disapproval, the cause for my opposition to him has been removed. I will support Mr. Smith and the ticket heartily.

With Mr. Duval's attitude thoroughly in accord with the harmonious party spirit his name will be placed on the ticket as planned, for councilman from the First ward.

Passengers on street car, No. 30, returning from the Matinee club races at the fair grounds yesterday afternoon were treated to the sight of Circuit Judge Reed in the role of a broad jumper. Judge Reed's soundness of body today is attributable directly to his remarkable leap from a balky automobile that stuck on teh track directly in front of a long traction car pulling two trailers loaded heavily with human freight just east of the fair grounds. Although unacquainted with automobiles, he succeeded in opening the side door of the tonneau, and in five strides gained the clear before the crash came. Contractor George Weikel, School Trustee C. G. Kelly and Judge Reed started from the Fair grounds in Mr. Weikel's automobile, bearing the number "13." When crossing the car tracks just east of the Fair grounds the big machine stopped dead on the tracks. Judge Reed was seated alone in the

BANK CLEARINGS FOR SIX MONTHS

Show a Phenomenal Business Development

Indicate Increase Over Same Period Last Year of Two Millions of Dollars.

JUNE MAKING UP FOR MAY.

Bank clearings this week, \$715,314. Same week last year, \$677,330. Increase, \$37,984.

Concrete proof of Paducah's steady industrial growth in spite of any adverse conditions, is best offered in a review of the bank clearings for the first half of 1907, ending today. In the six months ending today, the bank clearings reach the enormous total of \$21,088,721. This is an increase over the corresponding six months of last year, of \$2,404,667. If no better showing is made for the last six months of 1907 than has been made today, the bank clearings will run \$5,000,000 over 1906. If conditions in the rural districts right themselves, the increase may go much higher. Paducahans should tell their out-of-town acquaintances that local banks will clear over \$42,000,000 in 1907. A business man would know what it means.

In the first quarter of 1907, the bank clearings increased \$1,300,500 over the first quarter of 1906. Only one week in the quarter showed a decrease in clearings, and one week went over a million dollars. The total clearings for that quarter were \$10,204,592. In the last quarter of the first six months of this year, the clearings increased \$1,066,183 over the same period of 1906. Only two weeks in the second quarter went below \$800,000 in clearings and one week went over a million dollars.

The depression that struck the business world this spring, began in May. That month showed a decrease in clearings from the record of May, 1906, of \$93,598, but June made up for the depression with the magnificent increase in clearings of \$746,933. The total clearings for the second quarter ending today were \$10,169,105.

Mayfield's West Kentucky Fair Association and Paducah Organizations Arrange Dates So as to Accommodate Visiting Horsemen

HARRISON WATTS IS PRESIDENT.

Mayfield and Paducah have entered into an alliance that will make this end of the state the scene next fall of the greatest gathering of fine horseflesh it has ever known, and it will be an array that will challenge the proud blue grass region to surpass. The Horse Show association and Matinee club of Paducah and the Racing association and Fair association of Mayfield have arranged their fall events together so that all the entries in Paducah's events, will be right at hand for Mayfield's big fair and races. ULCERS

Chronic Ulcers are the result of a deeply polluted and foul blood supply. The blood is filled with germs and bacteria which are being constantly poured into the place of the ulcer, until all the surrounding flesh becomes diseased and the ulcer an obstinate and permanent trouble. Every symptom of an old ulcer suggests pollution; the discharge, the red, angry looking flesh, the inflammation and discoloration of surrounding parts, all show that the ulcer is prevented from healing by the constant drainage through it of impurities from the blood. This impure condition of the blood may be hereditary, or it may be the remains of some constitutional disease, or the effects of a long spell of sickness, leaving disease germs in the system, or the absorption of the refuse of the body which has not been properly expelled through the natural channels. But whatever the cause, the blood is so weakened and polluted that it does not properly nourish and stimulate the place, and the ulcer cannot heal. Salves, plasters, lotions, etc., keep the sore or ulcer clean, relieve pain, and perhaps reduce inflammation, but can never permanently heal them because they do not reach the blood. S. S. S. goes down to the very fountain-head of the trouble, drives out all poisons and germs, builds up the weak, sluggish blood, gives energy and strength to the system, and by sending a fresh, healthy stream of blood to the diseased parts, allows the ulcer to heal naturally and permanently. Nothing reaches inherited taints like S. S. S. It cleanses the circulation of every trace of hereditary disease or impurity, and those who have nursed and treated an old sore for years will experience good results as soon as the system becomes influenced by S. S. S. Book on Sores and Ulcers and medical advice free to all who write.

Is Digestion Labor to Your Stomach?

Do you lack healthy appetite? Have you an abnormal appetite? Do you feel bloated after eating? Does your stomach oppress you? Do you lack energy? These and other symptoms are sure evidences that digestion is not doing you the good it should. In many cases, the system is complicated with chronic constipation, and that makes it worse. What you need is something to aid your digestion and your bowels. A remedy to do that must have laxative and tonic in the digestion of food and acts on the liver and bowels to do their work promptly and effectively. Regardless of the trouble Dr. Caldwell's Syrup Pepsin will cure it.

Cured by Dr. Caldwell's Syrup Pepsin

I have used Dr. Caldwell's Syrup Pepsin in my family for about twenty years for constipation, biliousness and indigestion, and being without it in the house.

Our medicine is a laxative and tonic, it stimulates the juices of the stomach, that, in fact, you have indigestion or dyspepsia, your eating is not doing you the good it should. In many cases, the system is complicated with chronic constipation, and that makes it worse. What you need is something to aid your digestion and your bowels. A remedy to do that must have laxative and tonic in the digestion of food and acts on the liver and bowels to do their work promptly and effectively. Regardless of the trouble Dr. Caldwell's Syrup Pepsin will cure it.

In my twenty-five years' experience as a retail druggist I have never handled a medicine which gives such universal satisfaction as Dr. Caldwell's Syrup Pepsin. There is one physician in this city who prescribes this remedy in his practice, and I could secure affidavits from customers who have been cured of aggravated and chronic cases of Constipation of long standing. I use it myself and in my family. It is by far the best Laxative known to the human race.

My daughter has suffered from indigestion for the past five years and has tried nearly everything that she could hear of for such trouble. She was confined to her bed when she began taking Dr. Caldwell's Syrup Pepsin and after taking one fifty-cent bottle she is able to walk a mile at a time, and during the day, yesterday, walked three and a half miles.

I feel like praising Dr. Caldwell's Syrup Pepsin because two doctors told me my daughter could never get well, and I feel that she is on a fair road to permanent relief.

After receiving my trial bottle of Syrup Pepsin and using it I am sure it is the very thing I have been looking for so long. I never had so small an amount of anything to do me so much good.

CAN TURN BACK CONSUMPTIVES

Quarantine Laws Would Protect Western States, Says Army Surgeon.

Washington, June 29.—States may deport consumptives under their quarantine laws, according to a retired army surgeon who is considered an expert on tuberculosis.

"I am of the opinion that the state can quarantine against tuberculosis in the same manner that it can against scarlet fever," said this officer. "This disease is undoubtedly contagious. The question presented is a peculiar and delicate one. There are two classes to be considered, the sick and the well. I can appreciate the feeling of the well people of Texas and other western states, who daily have hundreds of consumptives thrown into their midst, sometimes in the last stages of the disease."

"Death in a great many cases follows soon after, and instances are not infrequent where city and state authorities have to provide means of burial."

Austin, Tex., June 29.—State Health Officer W. H. Brumby's proposition to establish a rigid quarantine to prevent persons affected with tuberculosis from entering Texas has aroused a storm of protest from towns and communities in the southwestern part of the state, which are the destination of many of these health-seekers. Such action would stand a good chance of getting well and becoming permanent citizens, it is claimed, and to enforce a permanent quarantine would entail an expense of more than \$100,000 a year.

Newbro's Herpicide

WHAT HERPICIDE DOES

Newbro's Herpicide destroys the tiny vegetable growth in the scalp that causes dandruff, itching scalp, falling hair and baldness. Once this microbic enemy of the hair is destroyed and kept out of the scalp, the hair is bound to grow as nature intended, except in cases of chronic baldness.

WHAT SUNLIGHT DOES

Sunlight is nature's germ destroyer and prophylactic. The effect of sunlight upon the scalp proves highly beneficial, if a complete plan of scalp cleanliness is carried out. This cannot be done without the use of Herpicide, which prevents reinfection and keeps the scalp pure and wholesome.

More men and women have gotten positive results from the use of Newbro's Herpicide than from all other hair remedies combined.

HOT WEATHER TROUBLES

The perspiration that exudes in increased quantities during the summer months, carries out poisonous and refuse matter that would otherwise clog up the pores of the scalp. Incomplete elimination of this waste, produces a hot and feverish condition of the sweat glands known as Prickly Heat for which Herpicide gives immediate relief. Herpicide stops itching of the scalp almost instantly.

Col. Thomp Burton, Member of the Board of Managers of the Ohio Penitentiary, writes as follows of Newbro's Herpicide:

"As to Herpicide I find it an excellent hair dressing as well as being the first and only absolute dandruff cure I have found. Upon my advice a number of my friends are using Herpicide, and the unanimous verdict is, that Herpicide is, in all respects, everything that its manufacturers claim for it."

Guaranteed under the Food and Drugs Act June 30, 1906, Serial No. 9.5.

 does, when it says:

W. T. Miller, a Smith man, was nominated for chairman, and the name of Sam Hubbard, a Palmer man, was also proposed. Miller was elected by a vote of two to one. This was the test of strength as to whether "Big Boss Fisher" or those who oppose him were to control the convention. Fisher won. His slate was then put through with a rush.

Now, dear reader, you may believe either page you choose. It is apparent the News-Democrat desires to please everybody.

The News-Democrat called the Republican city convention a "stink-fest" and a "disgusting scene."

Speaking of the Republican city convention, the News-Democrat said: "The result will be found forecasted in yesterday's News-Democrat."

At the same hour the News-Democrat gave a "forecast." The Sun gave a detailed report of the convention. We were 24 hours ahead as usual.

With W. H. Cox as lieutenant governor, Governor A. E. Willson will not have a "thorn in the flesh," like the present administration.

Pittsburg's health officers are making many arrests for violations of the anti-spitting law. What's the graft in that?

Mr. Arthur Y. Martin, in his acceptance of the nomination for city attorney, published in this issue of The Sun, manifests the spirit and capacity to make a remarkably efficient official. In vigorous prosecution of offenders, leaving the court no loophole for avoidance of duty, and encouraging the police in the performance of their duty; intelligent discrimination that will aid the court in conscientiously doing what is best for the prisoner and the community, discouraging crime and encouraging the unfortunate to do better; there is work for the sympathetic, just and exact man in the office of city attorney.

Eddie Harriman has acquired such a bad reputation, that when he attends a big gathering he is detained until the event is over.

Talking to 100 divinity students last Sunday the Rev. Johnston Meyers, of Chicago, argued that personal work and not preaching is wanted these days. He concluded:

"More preaching ceases to hold a large place in the work of the church nowadays. People are tired of it. However, it is given still a mere or less prominent place and the clergy are still trying to preach; with a certain amount of success."

"Compared with the congregations of a few years ago, and considering the enlarged size of the neighborhoods from which they have to draw, there are few large congregations in the country today as large as those to which Beecher, Talmage and Spurgeon preached."

There is no doubt that a pastor of a church must be more than a mere orator, but there are two points the doctor failed to elaborate. There may be no Spurgeons, Talmages and Beechers nowadays, and if the only big congregations in their day were their own, there were only three altogether, so the church is not decaying so rapidly, after all. Preachers will continue to preach, some better, some worse. The trend of the world's thought will affect the preacher's style, quite as much as the preacher will affect the world's thought, and neither the one nor the other affords the least excuse for the rest of us staying away from church.

Mayfield citizens did themselves proud entertaining the General Association of Baptists, and The Sun had the best reports of the sessions of any paper in Kentucky.

A. Y. Martin Accepts Nomination

Mr. Arthur Y. Martin, in accepting the nomination for city attorney, says:

"In view of the fact that the Republican party at its convention held on Thursday voluntarily nominated me for the office of city attorney, it behooves me to indicate my acceptance or declination of such nomination. Permit me to say that I appreciate fully the compliment done me in this selection, for the reason that I did not seek the nomination, nor have I been identified in any way with politics. But I have at heart the best interest of the city of Paducah, and when it is made clear to me that I should bear some portion of the public service, although it requires a sacrifice of personal wishes, I shall not shrink such a call. Therefore, I have considered the matter carefully from such view-point. However, it is only proper to say that I have listened to the advice and wishes of many friends belonging to both the Democratic and Republican parties, which have greatly influenced me in reaching a decision. I have concluded to accept the nomination and hereby announce my candidacy for the office of city attorney."

"This is a year full of hope and promise for the people who are striving for higher ideals and better public service. I believe in the people of Paducah, and I believe in the present growth and the future greatness of this city. It is evident from the spirit of its citizens that this young city is on the eve of a leap forward toward marvelous commercial and industrial prosperity, if encouraged by a wise administration of its governmental affairs. At its threshold both capital and labor stand expectant, awaiting the assurance that property will find full protection and personal security and happiness be promoted

by strict enforcement of the law, and the suppression of the agencies that make for lawlessness and disorder in the community.

"But I dare say there never was a time in its history when the public voice expressed with such unanimity the desire for the triumph of civic pride and decency. And its triumph will mark an epoch in the city's progress. A strong and conservative administration will drive away petty strife as well as dirty politics and intrigues, and will become a bulwark of protection against factional strife. Neither party fealty nor private interest should override the public good. Paducah can't afford to take a step backward now. It would be suicidal. And any effort in that direction would recoil on the heads of the men who undertake it."

"The growing tendency toward higher ideals in the government of municipal affairs has been recognized and sanctioned by the Republican party in this city, as shown by its adoption to yield mere partisan preferences and party adherence to its selection of candidates committed to measures confessedly best for the interest of the city. It has endeavored to obtain a strong conservative ticket—one that the people of Paducah as a whole will approve and support. And an approval of such a policy by the people next November will stimulate faith and hope in the progress and future of Paducah. This ticket goes before the people free of party pledges and entanglements, free of political obligations and demands, born of the needs of the hour, with the inspiration of success and with the kindling flame of enthusiasm fanned by the growing confidence of the public."

"Yours respectfully,
 "ARTHUR Y. MARTIN."

Ice Water For Street Railway Men.
 Taking water on the run is what motormen and conductors on traction company cars are doing. The officials know employees have to drink this hot water, and rather than suffer a delay by their leaving cars and going into houses for water, have provided a water man stationed at Fourth street and Broadway. He is there with a bucket of ice water and boards every car at a signal from thirsty employees.

To Taxpayers:

You are hereby respectfully reminded that the first half of your city tax is now due. This friendly notice is intended to save you from forgetfulness, which might cost you 10 per cent. penalty.

Our Red Tag CLEARANCE SALE

A Clean Cut of One-Fourth
on Our Entire Stock

JULY 1st TO JULY 17th

NEXT Monday, July 1st, is the first day of the greatest furniture clearance sale Paducah has ever known—a sale which will last for seventeen days. We propose to make it a notable money-saving event, and with this end in view have made a clean cut of at least one-fourth in our entire stock—in some few cases it is even more than that. Every piece of goods in the store will bear a RED TAG, showing the regular price and the Red Tag Sale Price, so that you can see for yourself what sweeping reductions have been made. Our immense stock of fall goods is beginning to arrive and we positively must have more room for display and storage. For this reason we have made prices on our goods which will make it worth your while to attend the sale.

All we ask of you is this: compare our regular prices with those you find at other stores then take off one-fourth more and see what a splendid opportunity this sale gives you to save money. If you do that, we know we can sell you if you are really in need of furniture, carpets, stoves, ranges, matings, refrigerators, sewing machines or any other kind of house furnishings.

Now, there is just one point more: Come as early in the sale as possible—Monday, say, or Tuesday—for you are like every one else—you like to have first chance at good things, don't you? Glance through this page and see what we are selling and how we are selling it, then come down and see the goods—that's the best way to tell whether the prices are really cheap or not.

CHAPTER XII.

BEFORE retiring to rest Philip ascertained Mr. Abington's London address and wrote asking for an appointment the following evening.

He also interviewed the manager.

"I want the help of a thoroughly reliable solicitor," he said. "I wish to purchase some property—not valuable property, but of importance to me. Can you give me the address of some one known to you?"

M. Foret named a reputable firm in the locality.

"They may refer to you," added Philip. "Of course I do not ask you to say more than I am staying here, but the point is I do not wish you to mention my age."

"Will you not see them, then?"

"No, I will endeavor to conduct the whole business by post."

The manager laughed.

"You certainly are the coolest young gentleman I ever met. However, Mr. Anson, it may please you to know that your bank gave you the best of recommendations. I will say so to anybody."

"So Philip first drafted and then copied the following letter:

Dear Sirs—M. Foret, of this hotel, has given me your names as a firm likely to transact certain negotiations for me. I want to purchase a small property in the Mile End road, known as Johnson's Mews, also a shop near the entrance to the mews, tenanted by a marine store dealer named O'Brien. The mews is owned by the Cardiff and Havre Coal company, limited. I do not know who owns the shop. I wish to acquire these properties for a philanthropic purpose, but I am most desirous that my name should not figure in the transaction. I propose, therefore, when you have ascertained the price, which should be at the earliest possible moment, to pay to your credit the requisite amount. You can have the properties transferred to any nominee you choose and again transferred to me. Kindly add your name, etc., to the purchase price. My movements are somewhat uncertain, so please send all communications by letter. It will be an obligation and lead to future business if you attend to this matter tomorrow morning. Yours faithfully, PHILIP ANSON.

He did not compose this letter without considerable trouble. The "philanthropic purpose" he had already decided upon, but he thought it was rather clever to refer to the possibilities of "future business."

As for the double transfer, he distinctly remembered copying letters dealing with several such transactions at the time of the coal company's conversion into a limited liability concern.

He was early to bed, and his rest was not disturbed by dreams. He rose long before the ordinary residents. Deftly, he walked to Fleet street and purchased copies of morning and evening papers for the whole of the week.

He could thus enjoy the rare luxury of seeing himself as others saw him. He read the perfunctory descriptions of the scene in court and found himself variously described as "pert," "masterful," "imperious," "highly intelligent," "endowed with a thin veneer of education" and "affected."

Philip could afford to laugh at the unfavorable epithets. Up to the age of thirteen he had been trained in a first rate lycée, and his work was supervised by his mother, a woman of very great culture. He spoke French as well as English and spoke both admirably. He knew some Greek and Latin, was well advanced in arithmetic and had a special penchant for history and geography.

It was in the glowing articles which appeared during his imprisonment that he took the keenest interest. Oddly enough, one ingenuous correspondent blundered on to a clue. Gifted with an amply mind, he had reasoned that the diamond-laden meteor fell during the extraordinary storm of the 19th, and the meteorological department in Victoria street helped him by describing the center of the disturbance as situated somewhat to the east of the London hospital.

The writer had actually interviewed a member of the staff of that institution who amused himself by noting barometrical vagaries. His instrument recorded an extraordinary increase of pressure soon after 10 o'clock on the night of the storm.

"Alas," said the scribe, "it did not indicate where the meteor fell, and not a policeman, bus driver or railway official can be found who observed anything beyond a phenomenal electrical display and a violent downpour of rain."

That was too close to be pleasant, and Philip was glad to hear from M. Foret that the collection after telephoning to ask for some particulars concerning Mr. Anson were giving prompt attention to his instructions.

"What did you tell them?" asked Philip.

"I told that you impressed me as the kind of young gentleman who would pay well for services given unsparingly."

"Did that satisfy them?"

"Perfectly. Such clients do not abound in these hard times."

Three hours later a letter came from Philip Anson, Esq., by hand. It was from the solicitors and read:

We are in receipt of your esteemed instructions. Although Saturday is a day on which it is difficult to do business, we have no time in inspecting the premises in the Mile End road, accompanied by a surveyor. We found that the mews stand approximately on an area of 3,000 square feet, while the shop

O'Brien has a frontage of

of thirty or thirty-five feet.

of this shop is a resident in the

neighborhood, and he will accept £250 for the freehold.

We were fortunate in finding the managing director of the Cardiff and Havre Coal company, limited, at his office. Although the company require the mews for the purpose of a depot, they are not unwilling to sell, with a stipulation that the premises shall not be used by any competing company during a period of twenty years from the date of transfer.

We stated that the site was required for a philanthropic purpose, but the latter stipulation is insisted on. The price asked is £250, which we consider excessive, there being a very inadequate approach. Moreover, we wish to point out that O'Brien's shop does not adjoin the mews, and it would be necessary to purchase two other houses to make the entire property a compact one.

However, adhering to the letter of your instructions, we have pleasure in informing you that the two properties can be acquired, with very little delay, for £250. The legal and other charges will not exceed £150. We trust, etc.

Philip immediately wrote:

I am greatly obliged by your prompt reply in the matter of Johnson's Mews and the shop. I enclose check herewith for £250. The purchase of the other houses can stand over for a few days.

This he dispatched by special messenger, and in a few minutes he held a formal receipt.

A telegram came for him. It was from Mr. Abington.

Can you see me after 5 at my house.

Then Philip enjoyed his first real breathing space during hours of daylight. He went by train to the cemetery in which his mother was buried, carrying with him a beautiful wreath.

It was a remarkable fact that this was the first visit he had paid to her grave. During the days of misery and partial madness which followed her death he never lost the delusion that her spirit abided with him in the poor dwelling they called "home."

Hence the narrow resting place beneath the green turf in no way appealed to him. But now that a succession of extraordinary external events had restored the balance of his mind he realized that she was really dead and buried; that what he revered as her spirit was in truth a fragment memory; that he would be nearest to her mortal remains when standing in the remote corner of the burial ground allotted to the poorest of the poor—those removed by one degree from pauperism and a parish grave.

It happened by mere chance that since Mrs. Anson's funeral no one had been interred on one side of the small space purchased for her. There were three vacant plots here, and a surprised official told Philip there would be no difficulty in acquiring these for the purpose of erecting a suitable monument.

The boy filled in the necessary forms there and then. It was some consolation to know that he could perpetuate her memory in this way, though he had formulated another project which should keep her name revered through the ages.

On the site of Johnson's Mews should arise the Mary Anson Home For Destitute Boys. He would build a place where those who were willing to work and learn would be given a chance and not driven, starving and desperate, to pick up an existence in the gutter.

He was too young to devise all the details of such a splendid institution, but he had got the idea and would possess the money. He would leave the practical part of the undertaking to older heads.

The one essential feature was that generations yet unborn should learn to love and honor the name of Mary Anson. Provided that was achieved, he knew the work would be successful.

Engineer and Captain of the Steamship

Comes to the

By the quick action of J. Louis Gibbons, a well known Illinois Central switch engineer of the Paducah shops, Conductor R. E. Werner, of the Illinois Central, was saved from a watery grave near Smithland yesterday afternoon. Conductor Werner and Engineer Gibbons were among a party of 13 on a pleasure jaunt. They went up the river in a gasoline launch, "The Stag." After spending several hours in the woods near Smithland, they started home. Werner started to board the launch when he stepped on Mr. Cliff Martin's foot. Martin jerked it out in sudden pain, and Werner lost his balance. He went into the water and was carried under the boat. At the rear end Engineer Gibbons stood. He leaned over the boat's stern, and when Werner's hands came to view grasping from under the sides of the launch, he grabbed him and hauled the big conductor above water.

VENUS INHABITED PLANET, SAYS CHICAGO PROFESSOR

More Likely Than Mars to be Home of Human Beings—Atmosphere is Like That of Earth.

Venus may possess a population of human beings and a civilization just as well as the earth. In fact, it is likely that Venus, more than Mars or any other planet besides the earth, has an atmosphere in which human beings may thrive and develop a life.

This is according to the theory of Prof. Forest Ray Moulton, of the University of Chicago, as given in a lecture yesterday to summer students on "The Relation of the Earth to the Other Planets."

"The atmosphere around Venus, as near as we can tell, is much like that of the earth," he said. "It is more similar to that of the earth than of any other planet."

"It is impossible for me to say anything about Mars in respect to life on this planet. If there are inhabitants on Mars they probably are more developed, more advanced intellectually and physically, than the people of the earth are."

Prof. Moulton also characterized as absurd a more or less popular theory that the earth and Mars might communicate with each other by means of bonfires or electricity.

MAY HAVE NEW TURN TABLE ON ACCOUNT OF ENGINES.

Since the 1033 class passenger engines have been assigned to the Fulton-Paducah runs of the Illinois Central trouble has been experienced at the local round house because of the inability of shopmen to turn the engine on the turn table. The table is not long enough, and the big engines have to be run around the "Y" to get in position to go south or north. It was stated this morning that authority for a new turn table had been given but no arrangements for beginning the work made.

Miners Adopt Socialism.

Denver, Col., July 2.—By a vote of 283 to 6, the convention of the Western Federation of Miners today adopted a new preamble for the constitution and by-laws of the federation, which in effect pledges all the members to socialism. It is the announced intention of the leaders of the federation to call a convention at Chicago for the purpose of organizing an industrial and political party which will place a ticket in nomination for the next national convention. The Western Federation of Miners and the Brewery Workers' union, it is expected, will form the cornerstone of the new national organization.

Powers Protest Against the Action of President Cabrera, of Guatemala.

PROMINENT MEN IMPRISONED

Mexico City, July 2.—Word reached Mexico City last night that President Cabrera of Guatemala had caused the arrest of one hundred and sixty citizens of that republic on a charge of alleged conspiracy in the recent attempt to assassinate him.

At least 20 were thrown into prison and later herded into squads of 20 and tried in groups. Two hands have been tried and many of the accused sentenced to death. Among the men imprisoned are some of the most wealthy and prominent men in the country. The statement is made that these men have long been on Cabrera's black list and that the charges against them were trumped up for political reasons.

Strong Protest Made.

City of Mexico, July 2.—When the news of wholesale arrests in Guatemala became generally known the diplomatic corps, except United States Charge D'Affaires Brown protested. No attention was paid to these protests by President Cabrera. The British minister was thereupon charged with drawing up a note detailing the incidents of the trial, which was characterized as a farce. This note is to be sent to the powers. The dispatch stated that absolute chaos reigns in Guatemala. Farm hands are being pressed for military service and crops are rotting in the fields. The rich are threatened with ruin unless they contribute to the war fund. Troops are being hurriedly rushed to the Mexican frontier and the Honduran border and San Salvador. Special trains of artillery are being sent out today to the frontier. The legations are being besieged by relatives and friends of the imprisoned men who fear they will be unceremoniously put to death.

MRS. F. R. PARHAM

RELIEVED OF HER SUFFERING
BY GENTLE HAND OF DEATH.

Young Matron, Prominent Socially
and in the Church Passes to
Her Reward.

Mrs. Anna Lee Parham, 44 years old, wife of Mr. Frank R. Parham, and one of Paducah's most prominent society matrons, died last night at 9:20 o'clock at the residence of her sister, Mrs. Henry C. Overbey, 231 Fountain avenue, the result of an operation performed in March at the Riverside hospital. She became ill several months ago, and remained in the hospital several weeks after the operation. She was removed to her sister's home when her condition became more serious, but for a short time afterward showed a slight improvement. Her condition the last few days grew slowly worse until death came.

Mrs. Parham was the eldest daughter of the late Col. Edward W. and Mildred Vaughan, and was born in Ballard county June 9, 1863. In her early girlhood she removed with her parents to Paducah, where she resided continuously afterward. On June 11, 1884, she was married to Mr. Frank R. Parham, a merchant-broker of much prominence.

Mrs. Parham was a woman prominent socially and in church, charity and literary circles. She was the first president of the Delphic club. She was one of the founders of the Women's club and took an active part in it before her health prevented her attending the meetings. She was a devoted member of the First Christian church. She is survived by the following brothers and sisters: Mrs. H. C. Overbey, Mrs. George C. Vernon, of Paducah; Mrs. Pauline Leland, of Chicago; Messrs. Edward

Vaughan, of Paducah; Horace Vaughan, who is in the west and unable to be located, and her uncles, Col. Sol Vaughan, of Fifth and Harrison streets; Q. D. Vaughan, of Louisville; J. P. Vaughan, of Clarksville, Tenn.; and Robert Vaughan, of Nashville.

The funeral will be conducted on Wednesday morning at 9 o'clock at the Overbey residence. The burial will be in Oak Grove cemetery. The Rev. Samuel Moore, pastor of the First Christian church, assisted by the Rev. W. E. Cave, will officiate. Telegrams have been sent all the relatives but no replies have been received. The pallbearers will be: Messrs. L. M. Riecke, Sr., C. C. Covington, George C. Wallace, T. E. Boswell, Muscoe Burnett and Robert Phillips.

Mrs. M. J. Houghton.

Mrs. M. J. Houghton died last night at 8:30 o'clock at the home of her daughter, Mrs. M. M. Mullen, 1533 Trimble street, of complications. Originally Mrs. Houghton's home was in Carleton, Ky., but for the past three years she had resided in this city. She was 77 years old and a charming woman to converse with.
